

Tree Plantation Drive at Global Institute Amritsar

In order to focus on the importance of enhancing green cover in the current environmental degradation crisis, the NSS wing of Global Institute of Management & Emerging Technologies conducted a massive “Tree Plantation Drive” in and around its Campus and in its adopted village Sohian Khurd today. More than 3000 trees were distributed and planted in and around Global Institutes.

Planting the first sapling, the chairman Dr. B.S. Chandi, an agriculture scientist, observed that developments in modern science & technology and population explosion have generated an ecological imbalance on earth which is threatening the future of human race if emergency measure are not taken by all the nations.

Dr. Akashdeep Singh, the Vice Chairman, himself an environmental enthusiast, told the assembled students that it is now the responsibility of every member of the society to contribute to preserve Mother Earth for our future generation and leave this world a better liveable place than the one in which they came. So, Let us plant trees so that our air, our earth, our mountains, our rivers, our oceans are pollution free as they used to be in the past.

The residents of Village Sohian Khurd thanked, Global Institutes for their initiative to create awareness of important issues regarding environment degradation and cleanliness among the villagers. He promised that they would work hard to make their village a green model village. They are already taking steps to teach villagers not to throw rubbish anywhere so that they can be a part of the “Swachh Bharat Abhyaan”.
